<Korea Metal Week> is Korea's leading industrial exhibition supporting the technological advancement and business growth of the metal manufacturing sector. Featuring core processes such as fasteners & wire, casting, tube & pipe, press & forging, surface treatment & coating, laser and welding systems, 3D technology, automation, and pump industry solutions, the exhibition has become a unified platform for strategic collaboration across materials, parts, equipment, and hardware. Korea Metal Week 2026 highlights industry-wide cooperation aimed at enhancing safety, achieving zero defects, and improving productivity through technological innovation. Amid rapid industrial changes, the exhibition offers a clear overview of key trends and the future direction of metal manufacturing.
