**<KOREA HARDWARE SHOW(KOHARD)>** is a comprehensive event aimed at exploring the growth potential of the domestic hardware industry, while sharing global trends and technologies. Covering a wide range of hardware products, including construction materials, power tools, garden equipment, automotive accessories, and safety solutions, it offers participants the opportunity to experience the latest technologies and market trends.

In particular, the exhibition emphasizes the convergence of various industries and focuses on the digital transformation and advanced development of hardware products and related technologies. KOREA HARDWARE SHOW will not only reflect on the past and present of the hardware industry but also serve as a platform to explore the future of next-generation robotics and smart hardware.
